

getconnected SPARK SERIES

2019 | SAN DIEGO, CA

NOVEMBER 21, 2019 | 11:00 AM-4:00 PM PT

Discover how GetWellNetwork helps you meet the ever changing needs of patients and families

GETCONNECTED EVERY YEAR

GetWellNetwork's GetConnected user conference brings together the best and brightest in health care for two full days of education, innovation and collaboration around the future of global digital health.

Following on the great success of this biennial conference, we wanted to continue to build on our conversations. To that end, in the next several months we'll be hosting the GetConnected Spark Series.

The GetConnected Spark Series delivers half-day events around the country where experts from local hospitals and health care practices gather to learn and share best practices.

WHY ATTEND

The GetConnected Spark offers participants the opportunity to hear about the current and future state of patient engagement and experience in care. We'll be tackling the issues of today by showcasing real-world use cases where technology was leveraged in meaningful ways to improve outcomes.

Attend a GetConnected Spark event to:

- Meet GetWellNetwork founder & CEO, Michael O'Neil and hear the GetWellNetwork vision for redefining global digital health
- Network and learn from other innovative health care leaders
- Connect with the GetWellNetwork product team as they share market trends and solution implications
- Gain practical knowledge and participate in a Continuing Education offering to help advance your career

REGISTER NOW

WHAT TO EXPECT

No matter where your organization is on the journey to digital health — just starting out, in the thick of things and looking to optimize and maximize or old pros seeking new ideas — GetConnected has lots to offer.

Discover

- Assess processes and discover areas for improvement using the latest technologies, strategies and industry insights
- Master new tools, skills and approaches for engaging patients across the care continuum

Connect

- Share experiences, exchange ideas and network with peers and partners
- Chat with experts and collaborate in hands-on workshops and interactive demos

Learn

- Hear how others are increasing efficiency, saving time and money, mitigating risk and improving safety with patient engagement solutions
- From adopting to optimizing to innovating, learn how to set your organization up for success

See

- Preview and compare new products, features and services all in one place
- See how your peers are exploring the realm of limitless possibilities

WHO SHOULD ATTEND

No matter your role, you'll walk away with smart strategies, actionable tactics and an imagination full of possibilities.

Clinical Leaders

- Leverage technology to tap into the continuum of care
- Implement best practice workflows for patient engagement and activation
- Transform your approach to personalized care with Precision Engagement

Technology Leaders

- Balance digital transformation with operational excellence
- Deploy patient engagement technologies cost-effectively
- Amplify the impact of your HIT strategy

Strategy + Experience Leaders

- Accurately measure value on investment
- Create market advantage by engaging patients and families anytime, anywhere
- Guide your organization forward using "big picture" insights
